

MATRIX BIOLOGISTS IN ACTION

Peter NIKOLAUS Bruckner Symposium in Münster

On December 6th, 2013, on St Nikolaus's feast day, friends and colleagues travelled from throughout Europe and from the USA to Muenster to celebrate Peter NIKOLAUS Bruckner's Birthday and to wish him well for his retirement. After over 40 years of research on collagen, Peter has decided to move on to new fields. It was a stimulating reunion of many distinguished scientists including Bjorn Olsen, Klaus Kuhn, Juergen Engel, David Birk, Renato Iozzo, Thomas Krieg, Mats Paulsson amongst many more plus local colleagues and ex-students and postdocs.

Peter Bruckner

The talks were followed by a get together at the NIKOLAUS-Party, with a lot of good wine and good cheer, as expected from Peter!
